Ride Classification - Indicates pace as estimated by average speed with "A" being the slowest and "D" being the fastest. "A" & "B" rides have frequent to semi-frequent stops to wait for all riders. On "C" & "D" rides there is no obligation to wait for slower riders if route directions are given.

As the ride leader, I agree to ask if riders have signed club entry forms, encourage all riders to wear helmets, and to find a replacement ride leader if I can't attend.
